age 3 SUED:	NUMARK TRANSPORTATION Image Correction No. EFFECTIVE: Image	Page
SOED:	Image Correction No. EFFECTIVE: Image SECTION 1 SECTION 1	
	RULES	ITE
	DEFINITION OF TERMS	
	(Subject to Note 1)	110
•	The term "ACTUAL PLACEMENT", shall mean:	
	The placing of a unit of the carrier's equipment at the site designated for loading or unloading.	
•	The term " <u>AIR-MILE</u> ", shall mean:	
	A statute mile measured in a straight line without regard to terrain features or differences in elevation.	
•	The term "BUSINESS DAY or USUAL BUSINESS HOURS" shall mean:	
t	Except as otherwise provided in individual Items of this Tariff, 8:00 A.M. to 5:00 P.M., excluding Saturdays, Sundays, and Legal Holidays, except that the consignee may designate his usual business hours to be other than 8:00 A.M. to 5:00 P.M., provided that such designated hours include at least six (6) hours all of which are between 8:00 A.M. to 5:00 P.M	
•	The term "CAPACITY LOAD", shall mean:	
	(A) That quantity of freight loaded on a truck unit which is equal to, or exceeds the minimum weight to which the truckload or volume rate is subject;	
1	(B) That quantity of freight which in the manner loaded so fills a truck unit that no more of the same freight in the shipping form tendered can be loaded in or on the truck; OR	
	(C) That quantity of freight which, because of unusual shape or dimensions, or because of necessity for segregation or separation from other freight, requires the entire capacity of a truck unit.	
•	The term " <u>THE CARRIER</u> " or " <u>CARRIER</u> " shall mean:	
	NUMARK TRANSPORTATION	
•	The term "CARRIER'S AGENT", shall mean:	
	An agent of a carrier of freight.	
•	The term "CARRIER'S EQUIPMENT", shall mean:	
	Any motor truck or other self propelled highway vehicle, trailer, semi-trailer or any other combination of such highway vehicles operated by the carrier.	
•	The term " <u>CHASSIS</u> ", shall mean:	
,	The under-frame work or undercarriage with mounted wheels or dollies used in the transport of containers or container units.	
•	The term " <u>COASTWISE</u> ", shall mean:	
	By way of, or along the coasts in transportation by water.	
•	The term " <u>COMPONENT PART</u> ", shall mean:	
	Any part of a shipment separately received by the carrier whether or not such part is separately delivered by the carrier; and any part of a shipment separately delivered by the carrier whether or not such part is separately received by the carrier.	
	(Continued on next page)	
	For explanation of abbreviations and reference marks not explained on this page, see last page.

	LOADING BY SHIPPER - UNLOADING BY CONSIGNEE (Concluded)	
(4)	On mixed shipments, when any portion of the freight is required to be loaded or unloaded by the shipper and/or the consignee, as a condition precedent to the application of the rate, the entire shipment must be loaded and/or unloaded by the shipper or the consignee. Otherwise, the rate will NOT apply and rates otherwise published will be assessed.	579
(5)	In the event that the shipment is stopped-off for partial loading or partial unloading, the party or parties tendering or receiving any portion of the shipment will be subject to the requirements as to loading or unloading.	
(6)	If any party tendering or receiving any portion of the shipment refuses to perform the loading or the unloading, as required, the rate will NOT apply and rates otherwise published will be assessed.	
	MINIMUM CHARGES	
S	hipments will be subject to an absolute Minimum Charge of \$63.00 .	610
	MIXED SHIPMENTS – LTL or AQ	
(1)	Unless otherwise provided, the provisions of this item apply only in connection with the transportation of commodities for which rates are provided in tariffs making reference to this tariff.	640
EXC	EPTION: Commodities for which rates are named in carrier's tariff(s) will not be transported in mixed shipments with commodities on which interstate rates are applicable.	
(2)	Single LTL or AQ shipments will be charged at the actual or authorized estimated weight and at the rate or class applicable, subject to the minimum charge in the carrier's tariff(s).	
(3)	When two or more commodities for which different rates are provided, are shipped as a mixed shipment without actual weights being furnished or obtained for the portions shipped under the separate rates, charges for the entire shipment will be computed at the class or commodity rate applicable to the highest rated commodity contained in such mixed shipment; (see paragraph (5) below).	
(4)	When two or more commodities are included in the same shipment and separate weights thereof are furnished or obtained, charges will be computed at the separate rates applicable to such commodities in straight shipments of the combined with of the mixed shipment. The minimum weight shall be the highest provided for any of the rates used in computing the charges. In the event a lower charge results by considering such commodities as if they were divided into two or more separate shipments, such lower charge shall apply.	
(5)	When charges are computed on a higher minimum weight than the quantity actually shipped, any deficiency between actual weight of the shipment and the greater minimum weight shall be computed at the rate applicable to the lowest rated commodity(s) in the shipment provided the actual weight of such commodity(s) aggregates 10% of the actual weight of the shipment or 500 pounds, whichever is lower. If the aggregate actual wt. of such lower rated commodity(s) does not total the required amount, the deficit wt. shall be charged for at the rate applicable to the commodity(s) in the shipment having the greatest aggregate actual weight.	
(6)	(a) Except as provided in Par. (6)(B), the charge for a package (see NOTE 1), or pallet, platform, rack or skid containing or bearing differently classed articles, shall be at the rate or class provided for the highest classed article in or on the package, pallet, platform, rack or skid. On LTL shipments only one of the articles taking the highest rate or class need be described. All the articles need not be specified on the shipping order or bill of lading (BOL), but must also appear on shipping order and BOL: "And other articles classed the same or lower", which may be abbreviated "RS or L" (see note 5).	
	(b) When articles subject to different LTL or AQ classes in packages, containers or shipping forms authorized in the applicable classification description for such articles are securely unitized on lift truck pallets, platforms, racks or skids, they will be charged for at the actual weights of the separate articles, in the authorized packages or shipping forms used, at the applicable LTL or AQ classes (see NOTES 2 and 4) subject to the following:	
	(1) BOL and shipping order must specify the separate articles and the total weight of each article so unitized. BOL and shipping order must bear the notation: "The above contained on (insert number) pallets (platforms, rack or skids, as the case may be).	
	For explanation of abbreviations and reference marks not explained on this page, see last page.

	SECTION 1	
	RULES	ITEM
	MIXED SHIPMENTS – LTL or AQ (concluded)	
(2)	Each shipment must have affixed thereto a packing slip listing the separately identified articles and the total weight of each such article unitized thereon.	640 conc
(3)	The weight of pallets, platforms, racks, skids, unitizing material or packing devises as required by Par. (6)(B)(5) must be shown on shipping order and BOL and will be charged for at the lowest class applicable to any article(s) comprising not less than 5% of the weight unitized on such pallet, rack or skid.	
(4)	Any article in a non-unitized shipment must be separately listed on the BOL and shipping order and will be charged for at the rate applicable to such articles.	
(5)	When unitization is by container of box-type fiberboard construction, packing devises must be used in any unoccupied space between inner packages and inside top of outer container. Packing devices used must be of sufficient strength and design to prevent collapse of the outer container when top loaded with other freight.	
(7)	When the LTL or AQ description for an article specifies an individual minimum weight per package or piece (see NOTE 3), no provisions being made for packages or pieces weighting less than the specified individual minimum, the total charge for the pieces shall be the same as would accrue on a like number of pieces, each of the specified individual minimum weight.	
(8)	When the LTL or AQ description for an article in bundles specifies an individual minimum weight per bundle, no provision being made for the article "loose", a single loose article or piece weighing as much as or greater than the specified individual minimum weight per bundle, shall be charged for as a bundle.	
(9)	When an article is differently classed LTL or AQ according to different weights of loose pieces (see NOTE 3), the total charge for a number of packages of a lesser weight shall be no greater than the charge for a like number of similar packages each of greater weight. This paragraph does not apply where different classes are published in individual items according to the density (pounds per cubic foot) of shipping packages.	
(10)	Each package which weighs less than the individual minimum weight provided in the description must be charged for at such individual minimum weight in accordance with Par. (7) or (9) of this item, and each piece of freight which equals or exceeds the specified minimum weight must be charged for at actual weight.	
(11)	Unless otherwise provided, where an LTL of AQ provision makes reference to specific mixtures based on an allowance or restriction by count, weight or percentage, such provision will not apply when the allowance or restriction is exceeded, as in the case of a maximum allowance, or is not met, in the case of a minimum requirement. When the maximum allowance is exceeded or the minimum requirement is not met, the provisions of Par. (2) through (10) are applicable.	
Note 1:	Articles unitized in outer containers meeting the requirements for complying boxes and secured on lift truck pallets, platforms, rack or skids, will be subject to the classes applicable to the same articles when tendered in boxes.	
Note 2:	The term "Shipping Packages" or "Loose Pieces" do not refer to the inner container or articles enclosed in a shipping package.	
Note 3:	When the billed weight is higher than the actual weight, the resulting deficit weight will be charged for at the rate applicable to the lowest classed article contained in the shipment, or in the mixed packages comprising the shipment, provided the shipper also specifies such lowest classed article on the BOL and shipping order at time of shipment.

RULES TARIFF 100 NUMK 100 NUMK 100 NUMARK TRANSPORTATION Page 23 Page 23 ISSUED: 🖾 **Original Page Correction No.** EFFECTIVE: 🗵 **SECTION 1** RULES ITEM PICKUP OR DELIVERY SERVICE - INSIDE DELIVERY AT A BUSINESS 751 When the carrier is called upon to either pick up or deliver shipments to a location inside a business, the carrier will assess an additional charge of \$8.50 per 100 pounds, subject to a minimum of \$35.00 per shipment. NOTE: The services provided under this item are subject to the Pickup and Delivery provisions found in Item 750. PICKUP OR DELIVERY SERVICE - RESIDENTIAL 753 Unless otherwise stated, the rates in tariffs, pricing agreements, and contract of the carrier which are subject to this tariff do not include pickup nor delivery at a residence. When the carrier is called upon to either pick up or deliver shipments to a residential location, for this service the carrier will charge an additional \$8.50 per 100 pounds, subject to a minimum of \$35.00, in addition to all other applicable charges. NOTE 1: The services provided under this item are subject to the Pickup and Delivery provisions found in Item 750. PICKUP OR DELIVERY — OTHER THAN DURING REGULAR WORKING HOURS 756 The provisions of this Item will ONLY apply to that portion of the pickup of delivery service performed outside of regular working hours, and ONLY when the shipper or consignee requests such service. The following charges will be assessed to the party requesting the following services, (Subject to Note 1). The carrier will pickup or deliver shipments prior to 8 A.M. or after 5 P.M. Monday through Friday, except on 1: Saturdays, Sundays, or Holiday (as defined in Item 110), for an additional charge of \$93.00 per hour for truck and driver ONLY. 2: The carrier will pickup or deliver shipments on Saturdays, Sundays, or Holiday (as defined in Item 110) subject to an additional charge of \$60.00 per hour for truck and driver ONLY, subject to a 4 hour minimum charge of \$240.00. NOTE 1: (a) The carrier is not obligated to provide such service. (b) Time shall be computed from the time of departure from carrier's terminal until the time of return to the same terminal. PRECEDENCE OF RATES 765 In the event of conflict of rates or discounts, the following provisions shall apply: If the shipper and the consignee each have an established discount, the debtor's discount shall prevail, except A: as provided in Paragraph B of this Item. B: If the shipper has an established outbound collect discount and the consignee has no established discount provisions, the shipper's "Outbound Collect" provisions shall apply in connection with collect shipments. C: In the absence of specific provisions maintained for a Third Party, those provisions in effect for the shipper shall apply. The term "Third Party", as used herein, does NOT include a separate billing address or Bank Payment Plan for the shipper or consignee. D: Commodity rate items shall NOT be subject to discounts, except as may be specifically provided. E: Specific net rates (Commodity or Contract) shall take precedence over any Class Rates (Discounted or Not). 	RULES	ITE
	STOPPING IN TRANSIT	
	I shipments picked up and delivered by the carrier may be stopped in transit to complete loading or to nload at a charge of \$75.00 per stop, in addition to all other applicable rates and charges.	90
NOTE 1:	This Item will NOT apply in connection with C.O.D. or Order Notify Shipments.	
NOTE 2:	The transportation charges will be based on the actual or minimum weight, whichever is higher, for the entire shipment from the first point of pickup to the final delivery, including any freight loaded at a stop-off point.	
NOTE 3:	The consignor must provide the carrier with an appropriately written Bill of Lading for each component part and a single "Master Bill of Lading" prior to or at the first point of pickup. The Master Bill of Lading must set forth in summary the total number of pieces and the total weight of all commodities in the shipment and must make reference by number to each bill of lading for a component part.	
NOTE 4:	Shipments may be stopped in transit at a point, or points between the origin and the final destination over the route over which the rates to such final destination apply, subject to a deviation of 10 air miles.	
NOTE 5:	When the Master Bill of Lading lists shipments to one party at more than one address, that party shall be considered a separate consignee at each address.
